Weill Cornell Medicine
James Buchanan Brady Foundation

Presents

Thirty Ninth Annual Victor F. Marshall

Visiting Professorship

Roger Roman Dmochowski, MD, MMHC, FACS

Associate Surgeon in Chief
Vice Chair, Section of Surgical Sciences,
Faculty Affairs and Professionalism
Vanderbilt University Medical Center

October 12 – 13, 2018
STATEMENT OF NEED

This Educational activity is needed because it will improve patient care and foster better co-worker relationships. Health care team members better serve patients when they are made aware of any new advancements in medical technologies.

Urologist need to be made aware of the importance in co-worker observations regarding unprofessional conduct and sharing that information with other professionals. This is feasible and requires organization-wide implementation. The lectures and discussions in this activity will fulfill this educational need.

TARGET AUDIENCE

Past and current faculty and residents of the Brady Department of Urology, as well as urologists practicing in the New York Metropolitan area.

COURSE GOALS & OBJECTIVES

At the conclusion of this program, all participants should be able to:

- Administer safe and high-quality medical care
- Use conceptual analysis to develop surgical innovations
- Identify unprofessional behavior and self-regulate

*Weill Cornell Medicine gratefully acknowledges funding provided in part by:*

_The Frederick J. and Theresa Dow Wallace Fund_
_New York Community Trust_
Program for the
Thiry Ninth Annual Victor F. Marshall Visiting Professorship

The New York Yacht Club
Dr. Roger R. Dmochowski is Professor at the Department of Urology at Vanderbilt University in Nashville. He is Director of the Section of Female Pelvic Medicine and supervisor of the Fellowship in Pelvic Medicine at Vanderbilt. He is also Clinical Assistant Professor in Surgery at the Uniformed Services University of the Health Sciences in Bethesda, Maryland. He is also Vice Chair, Section of Surgical Sciences Vanderbilt University Medical Center, Associate Director of Quality and Safety, Vanderbilt Health System, Executive Director of Risk Prevention for Vanderbilt Health System, Executive Medical Director for Patient Safety and Quality (Surgery), Associate Chief of Staff, and Medical Director of Risk Management at Vanderbilt University Hospital.

Dr. Dmochowski received his medical degree from the University of Texas Medical Branch at Galveston. He completed an internship and residency in surgery and urology at the University of Texas Medical School at Houston and at the M.D. Anderson Hospital and Tumor Institute in Texas. In addition, Dr. Dmochowski is subspecialty fellowship trained in female urology, neurourology, urodynamics and reconstructive urology. He is board certified in urology and female pelvic medicine and reconstruction. He received a Masters in Medical Management from Owen School of Business at Vanderbilt.

He has published more than 300 articles and 110 book chapters, and 4000 abstracts, and has given over 260 presentations at various national and international meetings. Dr. Dmochowski is on the editorial board for the World Journal of Urology, and he is a reviewer for the Journal of Urology, and Urology. He is the Editor in Chief of Neurourology and Urodynamics. He is a Fellow of the American College of Surgeons and a member of the American Urological Association and International Continence Society. He is a trustee of the American Board of Urology. Dr. Dmochowski has been granted the Zimskind
and Lifetime Achievement Awards from the Urodynamics Society for his accomplishment in clinical treatment for incontinence. His current research interests are outcomes of incontinence therapies with a particular emphasis on quality of life issues. He also is active in biomaterials evaluation.
FACULTY DISCLOSURE

It is the policy of Weill Cornell Medical College to adhere to ACCME Criteria, Policies, and Standards for Commercial Support and content validation in order to ensure fair balance, independence, objectivity, and scientific rigor in all its sponsored activities. All speakers, Course Directors, Co-Course Directors, planners, reviewers, and staff members participating in sponsored activities are expected to disclose relevant financial relationships pertaining to their contribution to the activity. Relationship information is analyzed to determine whether conflicts of interest exist. All conflicts of interest are resolved prior to participation in the planning or implementation of this activity. Presenters and authors are also expected to disclose any discussion of (1) off-label or investigational uses of FDA approved commercial products or devices or (2) products or devices not yet approved in the United States.

ACCREDITATION

Weill Cornell Medical College is accredited by the Accreditation Council for Continuing Medical Education to provide continuing medical education for physicians.

Weill Cornell Medical College designates this live activity for a maximum of 9.5 AMA PRA Category 1 Credit(s)™. Physicians should claim only the credit commensurate with the extent of their participation in the activity.

Notes

1. Refreshments will be available for each morning session
2. Friday’s lunch can be obtained at the hospital cafeteria or neighborhood restaurants.

VICTOR F. MARSHALL VISITING PROFESSORSHIP

The visiting professorship was established by the faculty and past residents of the Weill Cornell Medicine – The New York Presbyterian Hospital, Department of Urology, to honor our distinguished colleague and leader Dr. Victor F. Marshall.

Dr. Victor Marshall came to The New York Hospital – Cornell University Medical College from Culpepper, Virginia by way of Washington and Lee University and the University of Virginia Medical School. Dr. Marshall completed his surgical and urologic training at The New York Hospital and in 1946 joined its urologic staff. In 1948, Dr. Marshall became Surgeon-in-Chief of (Urology) at The New York Hospital, a position he held until 1976. He developed the residency into one of the truly outstanding urologic training programs in the work. Its graduates, “his boys”, have gone out to fill many academic chairs in national and international urology, as well as to render superb urologic care to their communities.

Dr. Marshall was a prolific author with more than two hundred publications to his credit. In addition to this, Dr. Marshall was an active member of many urologic societies including the American Board of Urology, which he was President. He received the Ramon Guiteras Medal of the American Urologic Association, the Barringer Medal of the American Association of Genito-Urinary Surgeons and the Valentine Award of the New York Academy of Medicine.

We honor Dr. Marshall by joining together our distinguished visiting professor, the past and current faculty and residents of the Department of Urology to demonstrate and discuss surgical and diagnostic techniques in a collegial atmosphere.
